Subject: B&CS Committee Agenda, February 28, 2013
- Item 4. Burlington Transit & the Employment Corridor

To: Councillors

The Chamber's Environment Committee has reviewed the Budget & Corporate Services Committee agenda for Thursday, February 28. They were particularly interested in Regular Agenda item 4, Burlington Transit Expansion – Business Case (BCS-1-13).

In regards to the latest proposal for changes to the Public Transit system in Burlington (memo item D), it is the opinion of the Burlington Chamber of Commerce that we are in support of route changes outlined in this proposal. Specifically, increased route service along the Harvester and Mainway Industrial corridors will assist businesses in this area by allowing employees to use modes of transport other than personal vehicles.

The Chamber looks forward to reviewing the results of the changes as they become available next budget cycle.

Keith Hoey
President
Burlington Chamber of Commerce
